Do you need assistance learning how your computer works?

We can help teach you the necessary skills to operate your Windows 2000, XP, Vista, Windows 7 computer. In order to provide you the best amount of service we offer Computer Lessons at your home on your computer. The reason is because our computers may not be set up exactly like your computer, and it is easier to teach *you* exactly how to do what *you are wanting to learn* on *your own* computer. For Instance, we may have our computer set up differently at the CGrafiks office than you would at your home. We also may not have the same software installed on our computers, and therefore cannot successfully show you how to use it on your computer!

NOTE: If your computer is a portable laptop, we can schedule an appointment to train you at the CGrafiks office if necessary. Please View pricing below.

During your remote session YOU will be able to observe all operations LIVE by watching your screen while we solve your problem or show you how to work on your own computer. Your computer mouse will actually move around on your computer screen right before your eyes. You can even watch and learn! Plus, YOU will be able to assume control at any time. When we are finished, we will disconnect from your computer and will be unable to reconnect, unless YOU initiate the connection again. This entire process keeps you, our client in complete control at all times. We're happy to explain this process over the phone to clarify any concerns that you may still have.

Please Visit Www.CGrafiks.Com/RemoteAssistance.htm for more information or to begin a session.

NOTE: Payment is due upon services rendered. WE ACCEPT MANY FORMS OF PAYMENT: You may mail Check or Money Order to the address listed below, or you may pay online at Www.CGrafiks.Com using a Credit or Debit card. We also accept Visa, Mastercard, Discover and American Express by telephone.
